The use and financing statement for a nonstate-funded project shall contain the estimated total construction cost and all associated estimated operating costs including a statement of anticipated project revenues. As used in this section, "new construction" includes land or property acquisition, remodeling and additions, and maintenance projects.

For projects over \$1,000,000.00, the state agency shall submit a use and finance statement as required for community colleges and universities in subsection (1). As used in this subsection, "direct federally-funded" refers to a project for which federal payments are made directly to the construction vendor and not to the state of Michigan.

(2) The state budget director may authorize that funds appropriated for lump sum special maintenance shall be available for no more than 2 fiscal years following the fiscal year in which the original appropriation was made. (3) Before the end of each fiscal year, the department shall submit a report to the JCOS and the fiscal agencies indicating the total cost and status of all lump-sum projects funded under this act and any previous act that have been designated as proposed, designed, bid, under construction, or completed within the current fiscal year.

#### Lump-sum special maintenance account.

- Sec. 602. (1) The department may expend from the lump-sum special maintenance account amounts necessary to demolish any building that is specifically authorized by law to be demolished.
- (2) Before the end of each fiscal year, each state agency, community college, and university shall report each year to the department the status of and planned schedule for demolition projects already authorized but not yet started, the estimated cost of the projects, and the anticipated sources of financing of the projects.

The department shall report to the JCOS on a quarterly basis each time operating funds are used for special maintenance purposes in an amount over \$500,000.00.
- (2) Expenditures from operating budgets for special maintenance, remodeling, or additions greater than \$1,000,000.00 are prohibited unless specifically appropriated by the legislature.

(1) Subject to section 242 of the management and budget act, 1984 PA 431, MCL 18.1242, and upon the approval of the state building authority, the department may expend from the general fund of the state during the fiscal year ending September 30, 2002 an amount to meet the cash flow requirements of those state building authority projects solely for lease to a state agency identified in both part 1 and this section, and for which state building authority bonds or notes have not been issued, and for the sole acquisition by the state building authority of equipment and furnishings for lease to a state agency as permitted by 1964 PA 183, MCL 830.411 to 830.425, for which the issuance of bonds or notes is authorized by a legislative concurrent resolution that is effective for a fiscal year ending September 30, 2002. Any general fund advances for which state building authority bonds have not been issued shall bear an interest cost to the state building authority at a rate not to exceed that earned by the state treasurer's common cash fund during the period in which the advances are outstanding and are repaid to the general fund of the state.

(2) Upon sale of bonds or notes for the projects identified in part 1 or for equipment as authorized by legislative concurrent resolution and in this section, the state building authority shall credit the general fund of the state an amount equal to that expended from the general fund plus interest, if any, as defined in this section.

- (3) For state building authority projects for which bonds or notes have been issued and upon the request of the state building authority, the state treasurer shall make advances without interest from the general fund as necessary to meet cash flow requirements for the projects, which advances shall be reimbursed by the state building authority when the investments earmarked for the financing of the projects mature.
- (4) In the event that a project identified in part 1 is terminated after final design is complete, advances made on behalf of the state building authority for the costs of final design shall be repaid to the general fund in a manner recommended by the director and approved by the JCOS.

### Reimbursement of excess revenue to state building authority.

- Sec. 702. (1) State building authority funding to finance construction or renovation of a facility that collects revenue in excess of money required for the operation of that facility shall not be released to a university or community college unless the institution agrees to reimburse that excess revenue to the state building authority. The excess revenue shall be credited to the general fund to offset rent obligations associated with the retirement of bonds issued for that facility. The auditor general shall annually identify and present an audit of those facilities that are subject to this section. Costs associated with the administration of the audit shall be charged against money recovered pursuant to this section.
- (2) As used in this section, "revenue" includes state appropriations, facility opening money, other state aid, indirect cost reimbursement, and other revenue generated by the activities of the facility.

# Rent appropriations as payment for insurance premiums; insufficient amounts.

- Sec. 703. (1) The state building authority rent appropriations in part 1 may also be expended for the payment of required premiums for insurance on facilities owned by the state building authority or payment of costs that may be incurred as the result of any deductible provisions in such insurance policies.
- (2) If the amount appropriated in part 1 for state building authority rent is not sufficient to pay the rent obligations and insurance premiums and deductibles identified in subsection (1) for state building authority projects, there is appropriated from the general fund of the state the amount necessary to pay such obligations.

#### Construction projects status report.

Sec. 704. The department shall provide the JCOS and the fiscal agencies a report, not more than 15 days after the reporting date, relative to the status of construction projects associated with state building authority bonds on March 31 and September 30 of each year, or not more than 30 days after a refinancing or restructuring bond issue is sold. To the extent of a difference between the estimated and actual amount received, there is appropriated from the general fund of the state the amounts necessary to satisfy the hospital rental requirements of the state building authority's 1986 revenue refunding bonds, series I. To the extent payments made to the state by the University of Michigan are required to be reimbursed pursuant to the agreement with the University of Michigan, there is appropriated from the general fund the amount necessary for such reimbursement.

The director may recommend to the board the release of any appropriation in part 1 only after the director is assured that the legal entity operating the community college to which the appropriation is made has complied with this act and has matched the amounts appropriated as required by this act. A release of funds in part 1 shall not exceed 50% of the total cost of planning

If federal money is received, the state share shall be adjusted accordingly as provided by this act.
